

MAKING SENSE OF CHAOS – DATA SCIENCE FOR COMPLEX SYSTEMS

SEMINAR

Prof. Anirban Chakraborti

School of Computational & Integrative Sciences
Jawaharlal Nehru University, New Delhi

19 JUNE 2025

12:00 NOON

PAMU SEMINAR ROOM

Life is full of complex, evolving systems – from financial markets to environmental systems. Using tools from physics, mathematics, statistics, and AI, scientists can unravel patterns hidden within large datasets. This talk offers a glimpse into how we decode real-world complexity using data science.

*Everyone is invited
to attend*
