SEMINAR

Date: July 08, 2025
Time: 02:00 PM

VENUE:

L- Infinity

(5th Floor, A.N. Kolmogorov Bhavan), ISI Kolkata

TITLE:

Schwede-Shiplay's Theorem in quasi-categories

SPEAKER:

Shantabrata Saha

Stat-Math Unit, ISI Kolkata

ABSTRACT:

We discuss Schwede-Shiplay's theorem which shows that under certain conditions a stable model category is Quillen equivalent to the category of R -module spectra for some homotopy associative ring spectrum R , in the language of quasi-categories.

ALL ARE CORDIALLY INVITED
